

Episode #11 – Unscramble your numbers

Are you stressed about cash flow issues in your business?

On this episode Hunter is joined by Amanda Fisher, author, mentor, and Chartered Accountant, to discuss the common issues business owners face regarding finances. Amanda advises that business owners not only need to understand their numbers but also need systems in place to give visibility on where money comes from and goes to, and how they must be thinking about the future, not just worrying about compliance and recording of numbers in the past.

We had a great conversation, and we're sure you'll find something of interest as you begin the journey of starting your first business after 40.
